

Dear GLOKALde Readers,

We present our Volume: 4, Number: 2 issue to our valuable readers.

Today industrialization, rapid increase of population and economic problems have increased the demand for education. Therefore, besides traditional education, a need for distance education occurred. Distance education that aims to meet the needs of education and provide equal opportunities to learners is still being used for solving educational problems in many countries across the world. It is a modern practice that enables students to learn by using communication technologies. In our journal, studies on distance education are included.

In this issue, the articles entitled "A Study of Responsible Environmental Behaviour Among B. Ed. Distance Learners with Reference to Their Locality, Gender, Stream & Socio-Economic Status" Dr. Taruna MALHOTRA and Dr. Sonal CHABRA; and "The Impact of Technology in Breaking Barriers Towards Women's Liberation in Open Distance Learning" by Anniekie NNDOWISENI RAVHUDZULO are included.

We hope to stay in touch and wish to meet in our next Issue, 1st of April 2019.

Cordially,

Prof. Dr. Emine DEMİRAY
